#### A NEW COAL MINE NEAR TRINIDAD STARTED

Senator Barola and Eugenia Garcia have opened a new mine about a quarter of a mile south of Jeffries, on the C. F. & I. Co. land. They are working the Englewood vein, and are retorting the coal in the city at \$2.75 per ton of green coal and \$2.25 for run of mine. The coal is clean and is better than other coal selling for \$3.00 per ton. "In time of peace prepare for war" and in summer prepare for winter. Store your coal while it is cheap, as the present price is liable to rise during the winter months.

Pueblo, June 1.—Officers of the Colorado State league and managers of the teams, met here tonight in an important session. Much of the time was devoted to the umpire question and it was finally decided to have two umpires for each town, allowing alternations.

A number of towns over the state were desirous of securing information as to the method of procedure in order to enter the league. It was decided to assure all such teams protection regarding their players, should they consent to the rules of the league. The protection of the organization was extended to Grand Junction, whose manager was present and expressed satisfaction at the terms offered.

#### WIFE DEAD, OLD MAN REFUSES TO EAT ANY FOOD

Philadelphia, Pa., May 30.—Having virtually starved himself to death because of a delusion which had haunted him all of his nearly forty years of married life, Harry Spahn, 50 years old, 1117 Germantown avenue, is dead at the Philadelphia hospital.

The story of the hallucinations which gradually drove him to his own doom was told by Harry Coleman of the rear of 1117 Germantown avenue, who tried in vain to get the part of the good Samaritan to the aged man.

Two months ago, Spahn, who had at one time been a barber, he said applied to him for a position. The latter had known him several years before, knew also of the recent death of the man's wife, and gave him a job in his shop. Almost immediately he began to act in a queer manner.

He refused to eat. He admitted being hungry, but said that it was impossible to eat food that had not been cooked by his wife, as that had been his custom for almost forty years. Later he said that it was not so necessary that the food be cooked by the dead wife, but that he had been hungry for so many days that the food placed before him was not of sufficient quantity to satisfy his hunger.
